### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edgar Cataxinos on May 24, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 20-35.

The following is an examiner's statement of reasons for allowance:

The references alone or in combination fail to teach the following:

1. ink jet ink composition formulated to segregate on a glossy print medium wherein the first pigment dispersion is dispersed with a polyacrylates and the pigment in the second pigment dispersion is dispersed with a sulfonate,
2. ink jet ink composition formulated so that the first pigment dispersion interacts with the first domain of the plain paper and the second pigment dispersion interacts with the second domain of the plain paper.

Art Unit: 1755

3. The Examiner would like to point out the previous rejections over Koitabashi et al and Kato have been withdrawn because the ink composition are directed to the pigments cohere not segregating.

Therefore the references are not seen to teach or fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
